Lexstar's Design for Success program made construction of the Eckroth Plaza a no-brainer. Eckroth Plaza, located in Bismarck, is a 32,000-square-foot, two-story, multi-tenant facility that houses the headquarters of Eckroth Music, a regional musical instrument retailer dedicated to musicians of all ages, and the new *Studio E*, a large music-teaching studio operation, featuring private studios. The facility also provides a beautiful outdoor music festival area where events will be held celebrating music, music education and community spirit.

From concept to completion, Lexstar Development & Construction was able to keep the project 'in the pocket', on schedule and on budget, allowing me to focus my primary energies on my core business. The end result is an amazing facility that will meet the needs of the business and our customers for many years to come.

Remember, everything is better when you're making music.

Musically,

Jeff Eckroth
President
