To Whom It May Concern:

I am pleased to provide this letter of recommendation for Lexstar Development & Construction.

By way of background, in November 2006, I signed an agreement with Lexstar to build a 20,000 square-foot restaurant and retail plaza that is currently under construction on 45th Street South near 13th Avenue in Fargo.

Selecting a contractor and designer to work with me to make my lifelong dream a reality was a major decision. I chose Lexstar based on their reputation for quality, their depth of experience and their willingness to work with me.

Lexstar provided a step-by-step comprehensive planning process, including:

- Listening carefully to my vision, goals and expectations
- Working with me to develop a financing package
- Developing an excellent design tailored to meet my needs
- Providing bid packages and managing sub-contractor relations

At this point in time, Lexstar has managed the construction process to stay on schedule. In addition, the team at Lexstar has done an excellent job of communicating and keeping me informed.

Sincerely,

Henry Guo  
Owner
